National Implementation Guidelines for HIV Counselling and Testing in Uganda

December 2010

These guidelines aim at enabling HIV counseling and testing (HCT) service providers to reduce missed opportunities for HCT through strategic communication; specific targeting of eligible populations; integration of HCT with key services; and coordination of HCT services at national, district, and service-delivery levels. They also place emphasis on the need to provide accurate HIV test results and include guidance on confirmatory testing and re-testing of people who test HIV-negative
